Our Journey: How KAT Solutions Came to Be
Pioneering Excellence in Distribution

<p>Emergence of KAT Solutions</p> <p>Founded in 1994 by visionary leader Datuk Ir. (Dr.) Khairul Anwar Tawi, the KAT Group of Companies commenced with a small team of three employees, focused on distributing teko prepaid products in Northern Peninsular Malaysia.</p>	<p>Digital Transformation Journey</p> <p>In 2011, our journey took a significant leap in digitalization when we achieved MSC-status. The emergence of KATSys™ was a reflection of our first-hand experience, delivering an accuracy rate of at least 99.97%. It efficiently manages millions of prepaid cards monthly while serving a network of retailers.</p>
<p>Embracing Digital Mastery</p> <p>Expanding our horizons, we embraced technology in the early 2000s, leading to the development a comprehensive distribution system. This innovation enabled the efficient management of millions of products each month. Our network spans over 10,000 dealers across nine states in Peninsular Malaysia.</p>	<p>Continuing Excellence</p> <p>Our journey has been adorned with accolades. Our flagship product, KATSys™, offers a comprehensive distribution management system suitable for businesses handling high-volume, fast-moving items. Today, KATSys™ remains at the forefront of technology across diverse industries.</p>

Our Services

Collection and Disposal

Assess the volume of waste collection and disposal. Our efficient and eco-friendly methods ensure that your waste is managed responsibly, reducing the impact on the environment.

Recycling Programs

Join us in promoting sustainability! Our recycling initiatives make it easy for you to contribute to a greener future by segregating recyclable materials and diverting them from landfills.

Street Cleaning and Sanitation

We take pride in creating spotless public spaces. Our dedicated teams keep streets, parks, and communal areas clean, safe, and inviting for residents and visitors alike.

Community Engagement

Together, we can make a difference. Engage your community in clean-up drives, workshops, and campaigns to foster a sense of ownership and pride in your neighborhood.

Effective waste management and public cleaning practices offer a wide range of benefits for both the environment and society in Malaysia. These benefits contribute to the overall well-being of citizens, sustainable development, and a cleaner, healthier living environment.

A well-organized waste management system and thorough public cleaning contribute to a cleaner, healthier, and more sustainable Malaysia, benefiting both present and future generations.

KLIN Malaysia, we proudly offer a wide range of waste management and public cleaning services tailored to elevate the quality of life in our communities.
